COMPLIANCE

No Fear Act  

The No-FEAR act requires all government agencies to conduct bi-annual training for employees and managers on how to remedy workplace discrimination and retaliation problems. Elevate’s required compliance training includes information on what practices are prohibited and the remedies available to someone who thinks they have been harassed or discriminated against because of race, color, religion, sex (including pregnancy), national origin, age (40 or older), disability or genetic information or if appropriate accommodation was not made for an employee’s religious practices or any disabilities. Our comprehensive training not only helps supervisors and staff learn about the protections of the No-FEAR Act, it helps them understand the difference between harassment/bullying and conflicts and how to resolve both using behavioral management techniques.

Ethics Awareness Training  

Ethics Awareness - Agencies must provide new employees with a minimum of one hour of duty time to either review the ethics materials stated in 5 CFR 2638.703 or receive ethics training, within 90 days of their entrance on duty. Agencies are required to provide annual ethics training to employees identified in the regulation, such as political appointees and contracting officers. Elevate provides a comprehensive ethics training.

Sexual Harassment  

What is sexual harassment? What is not considered sexual harassment? What is 3rd party sexual harassment? What is quid pro quo? Which type of sexual harassment is the worst in the eyes of the law? All of these questions will be answered and more in this enlightening seminar. Attention H.R. Professionals as you will need to get your pen out. Action plans as well as policies revisions will be discussed. New legislation will be covered which will cause everyone to make changes in how we behave with one another in the workplace.

Micro-Purchase

**DIVERSITY*** All of these courses can be paired with a DISC Assessment**

**Essentials of Diversity & Inclusion Series (1-3 days)**

Success in today’s business climate depends on several components. One of them is organizational culture, and the individual cultures of the employees of an organization. Since culture defines many aspects of how we think, feel, and act, it can be challenging for organizations to bridge cultural differences and bring employees together into a functioning team. Culture also influences people’s biases—those both implicit and explicit in nature. This 2-part series includes an optional facilitated debrief.

- **Day 1: Diversity & Inclusion Awareness**

  In this training, participants will gain a better understanding of cultural diversity which is aimed at increasing the participants’ cultural awareness, knowledge, and skills in order to benefit an organization by increasing the inclusion of different identity groups and by promoting better teamwork. More than ever, a workplace is a diverse collection of individuals proud of who they are: their gender, their sexual orientation, their religion, their ethnic background, and all the other components that make an individual unique. One of the challenges for workplace leaders is how these diverse individuals work as a team. We all know what happens to organizations that don’t have effective teamwork: they fail. And, failing to embrace diversity can also have serious legal costs for corporations.

- **Day 2: Diversity in the Workplace**

  While we cannot completely rid ourselves of unconscious bias, we can learn how to recognize it and lessen its impact in the workplace. These are skills that everyone can learn. Most people are not aware of how their unconscious biases can affect their behavior, but unchecked, it can have enormous impact in the workplace and throughout one’s everyday life. Understanding and mitigating the impact of unconscious bias is a crucial 21st-century global leadership skill. With awareness of unconscious bias and actionable steps to manage it, you will be able to make the best decisions for your organization, your colleagues, and your team. Managing unconscious bias is a vital step in building workplaces that are innovative, dynamic, and inclusive.

  In this training, through research-based assessments and exercises, you will move from awareness to action, learning how to interrupt bias and leverage the full potential of diverse teams and colleagues in your workplace.

Assessments are not only useful for determining information about oneself, they also provide an insight into the motivations of others. Assessments are delivered online in less than 20 minutes and are validated by certified trainers. Some assessments can look at up to 384 different behavior styles. Assessments are designed to demonstrate not discriminate on any of the protected Equal Employment Opportunity (EEOC) legislated classifications.

DISC

Learn your talents, inner strengths and weaknesses through the power of the DISC Assessment administered by a certified DISC trainer. You will be able to capitalize on abilities you never knew existed and will have a newfound knowledge about yourself, the people you deal with and the challenges you each face. Want to become a certified DISC trainer for your company? Contact Kyle@elevatebdg.com for more information.
Myers-Briggs Type Indicator

Elevate trainers are certified to administer the MBTI, a personality type assessment based on theories of C.G. Jung. The assessment makes these classifications understandable to the layman and useful in training participants’ everyday personal and professional lives. By assessing seemingly random behaviors, assessment takers will be classified into several orderly and consistent models based on perception and judgment. Understanding one’s MBTI will prepare participants to better understand their personal decisions in the workforce.

360 Assessments

360 assessments are used to gather feedback from peers, subordinates, and superiors. Groups, individuals, or entire divisions can get an accurate picture of their workplace performance, strengths, and weaknesses. This is done by submitting assessments to individuals that have regular contact with the subject. Based on the results, subjects will work closely with a coach or trainer to improve areas targeted in the 360 feedback. Elevate will help organizations determine targets for assessment, monitor participation by evaluators, determine the process of feedback, crunch the data, and plot a path forward.

Strength Finders Assessments

The Strength Finders assessment helps people discover their natural abilities – some they may never have the opportunity to use on a day-to-day basis. A clear understanding of these sometimes obvious, sometimes subconscious strengths enables Elevate trainers to unleash untapped potential in participant’s working environments. This also helps identify knowledge gaps that can be improved upon for continuous well-rounded success.

Behaviors and Motivators

The Behavior and Motivators assessment analyzes individual’s behavioral style. It will delve into how people do things, how they act, and how they respond to their environment. Metrics from the assessment will gain an understanding of what an individual brings to the job, identify an individuals natural and adapted style of dealing with problems, and discover your employee’s preferred method of communication.

Emotional Intelligence

Elevate’s Emotional Quotient assessment looks at a person’s emotional intelligence, which is the ability to sense, understand and effectively apply the power and acumen of emotions to facilitate higher levels of collaboration and productivity.
TriMetrix® EQ

Examine the behaviors individuals bring to the job, the motivators that drive them, and an understanding of their own emotional intelligence. This report blends all three sciences together in an integrated section that will illustrate the impact emotional intelligence has on core behavior as well as the top two motivators’ styles as it applies to influence and persuasion.
