LEADERSHIP SKILLS

Class Format:

On-site & Virtual

Successfully leading and managing a workforce can be challenging. Why Good Leaders Fail will teach participants the difference between management and leadership. The biggest difference between managers and leaders is the way they motivate the people who work for or follow them, and this sets the tone for most other aspects of what they do. Participants will learn new skills and techniques to easily transition from being just a manager to being a true leader. They will learn how to manage their new staff, ease conflict, delegate, problem solve, ease into managerial duties, and more.
