BEHAVIOR ASSESSMENTS

Elevate Inc. offers over twenty different assessments to determine staff and management relationship styles. These extend beyond the personal and can be used to determine leadership, communication, emotional intelligence styles, and more. These assessments include DISC, Motivators, Driving Forces (what motivates individuals to succeed on a personal and professional level), Emotional Intelligence, Management-Staff Relationship, Team Reports, Sales, and more. Assessments are not only useful for determining information about oneself, they also provide an insight into the motivations of others. Assessments are delivered online and are validated by certified trainers. Some assessments can look at up to 384 different behavior styles. Assessments are designed to demonstrate not discriminate against any of the protected Equal Employment Opportunity (EEOC) legislated classifications.

Wiley's Everything DiSC® **LC LP RD BA BC FC**

Wiley Brands'® Everything DiSC® is a personal assessment tool aimed at enhancing workplace communication and interpersonal effectiveness. The tool categorizes individuals based on four primary personality traits: Dominance (D), Influence (i), Steadiness (S), and Conscientiousness (C). By taking an online assessment, participants receive a detailed report highlighting their primary behaviors and offering insights into how they might interact with others. This framework provides a common language for understanding and adapting behaviors in a workplace setting. Organizations deploy Everything DiSC® for various purposes, including leadership development, team building, and conflict resolution, aiming to foster a more collaborative and efficient working environment.

Wiley's The Five Behaviors® **LC LP RD BA BC FC**

The Five Behaviors® profile system is based on The Five Dysfunctions of a Team by Patrick Lencioni. The five behaviors Lencioni identified will result—if each is maximized—in a team that operates as efficiently and effectively as possible. The characteristics of a cohesive team are Trust, Conflict, Commitment, Accountability, and Results. Each behavior in the model builds upon the previous and supports the others. The team profile and facilitated program lets team members know how they and the team are doing, and how they can become more cohesive.

Clifton Strength-Finders® Assessment **LC LP RD BA BC FC**

The Clifton Strength-Finders assessment helps people discover their natural abilities – some they may never have the opportunity to use on a day-to-day basis. A clear understanding of these sometimes obvious, sometimes subconscious strengths enables Elevate trainers to unleash untapped potential in participant's working environments. This also helps identify knowledge gaps that can be improved upon for continuous well-rounded success.

Myers-Briggs Type Indicator **LC LP RD BA BC FC**

Elevate trainers are certified to administer the MBTI, a personality type assessment based on theories of C.G. Jung. The assessment makes these classifications understandable to the layman and useful in training participants' everyday personal and professional lives. By assessing seemingly random behaviors, assessment takers will be classified into several orderly and consistent models based on perception and judgment. Understanding one's MBTI will prepare participants to better understand their personal decisions in the workforce.
